3. Presentations

A. Power Supply Presentation

Patrick Bowland from the Michigan Public Power Agency (MPPA) stated that the City Electric System is facing challenges to remain economical and reliable in the future while at the same time meeting various new State Laws and Requirements. On top of this are rapidly changing customer expectations, and the constant push toward sustainability. In the past we invested in large coal plants to meet our basic power needs but that has all been changing drastically over the years. Coal is on the way out and renewables are being pushed at every opportunity. One of the challenges for us is to not only work towards a sustainable future but work towards a practical and economical future as well.

4. Adjourn

The Mayor adjourned the meeting at 5:51 p.m.
